

Hogg Construction

Dentsply/Cavitron York, PA

Project Highlights

- 65,000 square foot dental equipment manufacturing facility
- Project was constructed under “Design-Build” format
- New sales support and product design offices
- Turnkey project including land development, extension of public utilities to site, and relocation and installation of production equipment from another facility
- Eight month construction time to completion through the winter

“As I step back from this project, the most stunning achievement is what’s left behind, which is a spectacular building. Many of our employees have said it is the nicest facility they have ever worked in.”

-James G. Mosch, Vice President & General Manager, Dentsply Preventative Care
