

Project Highlights

- Alterations and 4,000 sq. ft. addition to historic building built in the early 1900's
- Complex phasing of project due to renovations in existing areas
- Connection of two structures through additions
- New facility provides additional space for daycare and after school children's programs

"We were so pleased to be able to have the dedication service exactly one year after the groundbreaking ceremony. Hogg Construction was able to adjust to our changing situation and keep the cost of the project within our range of possibility. The results exceeded our vision and surpassed our hopes."

-Kenneth Heasley, Pastor
