

*“Christ Church is enjoying worship in a beautiful new sanctuary built by Hogg Construction. The ability to modify the original design to bring the cost within our budget allowed the project to move to completion. As work progressed, the detail of determining the measurements of tying in the new work to the existing structure was outstanding.”*

- The Rev. Dr. David Robert Green

### Project Highlights

- 11,300 SF Sanctuary addition with seating for over 500 and new Narthex connected to existing church building.
- Curved wall in Altar area of new Sanctuary provided for architectural interest and acoustical properties.
- New road access, storm water management, and expanded parking lot with extensive site work completed.
- Intelligent Value Engineering to help the Church realize their five year Vision.
- Christ Church remained open and fully operational during construction.
- Hogg’s Safety and Security Program was implemented with extreme care to ensure the safety of the children, church members, employees, and community.
