

"Hogg Construction performed this difficult job professionally and they met our schedule even after being confronted by structural and environmental surprises while working in tight quarters in a 75 year-old structure with nearly impossible access. In order to maintain our critically important original schedule, they built an entire apartment from the ground up within 30 days."

*- Shawn Colbert,
Springwood Real Estate Services*

Project Highlights

- 47 unit senior housing project
- Adaptive reuse of an existing wire cloth manufacturing building
- ABC Award of Merit Project finalist
- Courtyard style provides seniors with small neighborhood living environment
- Energy efficient mechanical and insulation systems conform to Comfort Homes standards
